ORTHODONTICS IN LONDON

AWARD WINNING CLINIC

## INTRODUCING AHMED

Dr Ahmed Omran is our specialist Orthodontist here at DRMR. He obtained his MSc in Orthodontics with Distinction at King's College London and his Membership in Orthodontics (MOrth) with the Royal College of Surgeons England and is on the GDC Specialist List in Orthodontics and a committee member of the British Lingual Orthodontic Society.

Dr Ahmed Omran provides a wide range of orthodontic treatments and can combine jaw surgery with treatments to achieve optimal results.

We recommend you see an orthodontic specialist initially for a comprehensive assessment and discussion of your case. While advances in technology and clear aligner therapy have greatly popularised the number of general dentists providing orthodontic treatment, they do not have the same level of training and are unlikely to have the same level of experience as an orthodontic specialist.

Ahmed provides a bespoke service to each and every patient, offering thorough consultations and honest expectations. Ahmed treats people of all ages, from children as young as 7 up to adults at any age.

In his spare time, Ahmed enjoys scuba diving, skiing, golf and keeping fit at the gym. He's always up for a game of chess if you challenge him!
