

Brighten These Grey Days With DRMR

TREAT YOURSELF

Want to be able to show off your smile in 2024?

If you are looking to whiten your smile for your upcoming Ski Trip, winter sun or even to share pictures for work or family on social media. We know having white sparkly teeth will brighten your whole face, so here at DRMR, we've got just the thing for you!

We have a new Airflow system for our patients when they see our award winning hygienist. Airflow uses a combination of water, compressed air and fine powder particles of sodium bicarbonate to clean and professionally polish teeth and ceramics so that you can smile proudly.

Airflow additional £45

Don't go on holiday worrying about your teeth, elevate your self-confidence and brighten your smile with us either by using our whitening gel or home whitening kits:

DRMR Whitening gel £220 (20 days worth of gel)

Home whitening kit £495

And if you, your friends or family are interested in this, you can gift them a consultation (if you are already a patient at DRMR you can gift them a consultation free of charge) and in return, by referring them we will send you some DRMR skincare as a thank you from us.

If you would like to book yourself in you can do so by either - hitting 'reply' to this email, emailing bookings@drmr.co.uk, calling, texting or WhatsApp us at 07770 117 000 or clicking the link below to take you to our booking portal.
