TREAT YOURSELF

Our Signature DRMR Face Clean

DRMR AQUA is a 3-in-1 technology that combines the extraordinary cleansing power of water peeling with sequential acids with microdermabrasion and transdermal delivery. An ultra-effective system that raises the standard of any facial treatment, making the active ingredients even more effective.

Suck It Out

Water Peeling with Sequential Acids

Is a water-based peel with sequential acids, used with a vacuum to remove all those impurities including dead skin cells, blackheads and whiteheads.

Hydrate

Deep Hydration with Hyaluronic Acid

The infuser handpiece, which uses hyaluronic acid and serums to restructure and oxygenate your skin making it brighter and softer than ever before.

The Diamond Bit
The Strength of a Diamond to Renew Every Type of Skin

The Diamond-Grain hand piece is used to exfoliate and polish the skin, using non-invasive microdermabrasion that will improve the appearance and texture of the skin helping to restore its elasticity.

The Champagne Bit
Tissue Restructuring and Oxygenation

Ultimate skin oxygenation for instant boost of radiance. Radio Frequency that induces collagen and elastin regeneration in the dermis, for skin tightening and contouring.

DRMR Aqua mini with Gosia or Chris, our fabulous therapists, the treatment is 60 minutes of deep cleaning and stimulation of your skin to leave you looking your best.
