

## Truly futuristic

The multi-award-winning MOMENTUM series from Sennheiser introduces a new member to the family. The MOMENTUM True Wireless 3 set new standards when it comes to sound quality, adaptive noise cancellation (ANC), and wearing comfort. Encased in a design that was defined using high-quality materials and precise workmanship, the earbuds offer a range of technologies and features that take the listening experience to a new level. Just like its predecessors, the MOMENTUM True Wireless 3 delivers outstanding sound quality, centred around Sennheiser's True Response transducer. Based on dynamic 7mm drivers manufactured in Germany, it produces an immersive stereo sound with deep bass, natural mids and detailed highs. The new Sound Personalisation feature provides an enhanced sound experience via a guided listening test to setup the perfect sound for each user's individual hearing. In addition, the Smart Control App offers a choice of presets and an equaliser feature to tailor the sound to the user's taste.
