

## 2025: No More Amalgam in EU

Here at DRMR, we haven't used silver fillings ever, we only offer tooth coloured fillings, that is what we believe is best for our patients. The European Parliament have now deemed silver fillings unsafe, and have banned their use starting January 2025!

Silver fillings are a mixture of mercury, silver, copper, tin and zinc. Of which over 50% of the mixture is Mercury, known to be the most toxic non-radioactive element on Earth.

Tooth coloured fillings contain no heavy metals, look natural and are more environmentally friendly.  
Is it time to make the change?

### What we offer here at DRMR?

Both Dr. Manrina Rhode and Dr. Irene Nuta offer composite fillings with us. Prices start at £350.

We can remove your silver fillings in a safe way.

### HOW TO GET BOOKED IN?

Hit 'reply' to this email.

We are excited to remove your metal fillings from your mouth.

To book email [bookings@drmr.co.uk](mailto:bookings@drmr.co.uk), call, text or WhatsApp us at 07770 117 000
